Services

Ocean Freight

Air Freight

Land
Transportation

Customs
Clearance

Ocean Freight

Full Container Load:

FCL is the shipping option that makes up the majority of Earnest Trade's Ocean Freight service and it involves shipping a full container as a single unit. For customers this is generally the fastest and most efficient way to move products.

Less than Container Load:

LCL involves moving goods that do not fill a container. Cargoes are combined with others to maximize load factors of containers. Combining goods headed to the same region or destination gives customers with lower volume shipments access to ocean freight economies of scale that are normally restricted to full container movements.

Non-Containerized Load:

The NCL service covers goods that require special handling not covered by shipping in a standard container or oversize goods that do not fit a standard container. In addition to moving these loads by ship, Earnest Trade arranges road or other transport assistance to the final destination.

Air Freight

Direct Flight:

Where time is critical or security requirements dictate, Earnest Trade will source the quickest and most direct route ensuring your products meet deadlines and are available at destination as soon as possible. Excellent working relationships with all major carriers ensure Earnest Trade can deliver against these criteria and offer flexible solutions.

Consolidation:

Where time is less critical or value little less sensitive, Earnest Trade provides regular consolidation services for both inbound and outbound services to all major Global gateways enabling us to provide a flexible and cost effective service that meets our customers and their customers' needs.

Charter Services:

For Project Cargo movements Earnest Trade provides charter services by working with major leasing companies. Load planning as well as chartering services are provided, services also include end to end control to final destination which may facilitate specialist equipment for the inland elements at origin and destination.

Hazardous Goods:

Earnest Trade is licensed and has certified trained staff to provide correct and accurate dispatch of hazardous products

Land Transportation

Earnest Trade operates an extensive fleet of trucks and trailers to meet the needs of our customers; we transport all kinds of cargo to anywhere in Egypt, GCC and Northern African countries. Moreover, we have telescopic cranes, forklifts, low-bed trucks and refrigerated trailers and vans to handle all kinds of cargo including hazardous cargo (ADR) and special loads as project cargo, extra large and extra heavy pieces, and multimodal transport possibilities as well.

Customs Clearance

Final release:

All Egyptian ports are covered by our brokers who are experts in all aspects of the Egyptian clearance regulation and procedures which govern the importation process in Egypt, we also provide our clients with technical studies for their products, including; tariff rates, sales tax and Egyptian quality standards to avoid the customs penalties and the rejection possibility. Duration for the clearance process doesn't take more than 3 working days. We also offer import license to our clients who doesn't have it

Temporary release:

dispatch the shipping documents to Earnest Trade and receive your cargo in the next working day, our clearance operations Dept. is responsible to assign the customs and investment representatives to your company, also at Earnest Trade we issue the insurance policies on behalf of your reputable corporation, do not waste your time just send the shipping documents to our specialized department and we will legalize the documents from GAFI and deliver the cargo to your premises within 24 hours.
